

Building Code Enforcement **Green Building Resource Center**

Presents an Education Seminar in partnership with the Texas Chapter of the US Green Building Council

TOGETHER, WE CAN MAKE A DIFFERENCE

SMALL CHANGES IN BEHAVIOR CAN HAVE A BIG IMPACT ON OUR PLANET!

WHEN YOU THROW SOMETHING AWAY, WHERE DOES IT GO?

IN THE UNITED STATES IN 2017, **267.8** MILLION TONS OF TRASH WERE GENERATED

139.6 MILLION TONS ENDED UP IN LANDFILLS

Earth Day and Recycling

The 50th Anniversary of Earth Day, and we are talking about recycling? Surely we are in dire need of more significant change than just recycling on this planet. Correct. And we are not going to dwell on dire change or saving the world today. We want to dwell on something we all know about and can influence on a daily basis. Feel free to take on something impossible the day after. Oh, and you can do this sheltering in place.

Recycling is not going well. 87% of people surveyed recently feel recycling is important. 81% want to create less waste. 73% feel they lack clarity on what is recyclable.

Clive will talk about the electronics end-of-life story, Keith will talk about construction & demolition waste, and Steve will bring in some current events. This is a webinar on Skype.

Speakers.....

- Clive Hess**, Executive VP
Compucycle
- Keith Koski**, Warehouse Manager
City of Houston ReUse Warehouse
- Steve Stelzer**, Program Director
City of Houston Green Building Resource Center

Held in the Green Building Resource Center located in the Houston Permitting Center with its LEED Gold Certification since 2012. The GBRC is Houston's best location for seeing displays of green building materials and strategies.

Visit The Green Building Resource Center at www.codegreenhouston.org or on
