The U.S. Green Building Council Texas is a community-benefit nonprofit (501c3) committed to ensuring a better built environment for current and future generations of Texans. We are uniquely focused on uniting all stakeholders involved in the development, design, construction, operation and use of the built infrastructure to achieve equitable practices and policies that are economically, environmentally, and socially sustainable.

**ACCELERATE**

**the movement toward adoption of sustainable and equitable built environment.** USGBC Texas serves as a facilitator and educator on green building issues across the state. Through education, advocacy, community outreach and partnerships, we achieve our mission to accelerate the adoption of green building and sustainable development practices and policies in Texas.

**CREATE**

**a healthy Texas.** USGBC Texas focuses on more than just individual structures. Building green means conserving water and energy, incorporating green spaces, planning for wise use of land, encouraging sustainable urban land redevelopment, assuring indoor air quality, improving health conditions for inhabitants, and many other benefits. We host educational events featuring relevant speakers and advocating for sound policies that work for our many stakeholders.

**GENERATE**

**profits and jobs.** USGBC Texas realizes that green building has an enormous potential to lower the bottom line cost of operation for companies while creating jobs for Texans. That’s why we work with the Texas business community to advocate for sound building policies. We work with local, regional and state governments, higher education institutions, and other decision-making bodies to make high performance building a priority.

**ENGAGE**

**the whole community in the conversation.** USGBC Texas is a 501c3 nonprofit with a diversity of stakeholders, including building industry professionals, business owners, educators, lawmakers, and community members. We connect them all in conversations about real solutions, in collaboration with our partners and through networking and educational events,

**EDUCATE**

**members, supporters, local, regional & state governments, everyone!** USGBC Texas believes that the building industry will be transformed by providing knowledge. We offer a wide variety of opportunities to become engaged and learn about high-performance building, such as Green Schools programs, LEED study groups, lunch-n-learns, community service projects/ opportunities, webinars, lectures, networking mixers, leadership training, and more.
