Starting November 1st, 2016, LEED v4 came into effect. To help the building industry get familiar with this new rating system  
USGBC Texas Gulf Coast Region has been conducting regional presentations given by subject-matter experts from Gulf  
Coast region. This is the first in a series of LEED CE days, when 6 training presentations are available on a single day.

USGBC membership renewal available at this event. See link for available opportunities:  http://www.usgbctexas.wildapricot.org/
