

# Yotta Solar

**Omeed Badkoobeh**

omeed@yottasolar.com

**Bio:**

Omeed Badkoobeh is the CEO of Yotta Energy. Prior to founding Yotta, Omeed has 10 years of experience in the solar PV industry and has developed over 10M in revenue of new energy technologies from home batteries to electric vehicles.

**Business/Product:**

Yotta Solar is developing a modular energy storage device, SolarLEAF™; battery storage integrated with photovoltaic (PV) installation designed to reduce cost and expand development of energy storage and grid resiliency on commercial buildings. SolarLEAF™ will expand solar energy use by reducing the soft costs of designing, installing, and maintaining an energy storage system compared to traditional centralized systems.
