

Building Code Enforcement **Green Building Resource Center**

Presents an Education Seminar in partnership with the Texas Chapter of the US Green Building Council

Green Building and Virus Protection

Living in a paradigm shift, are we? Clearly, we all know to wash our hands, and we are seeing a number of plex and glass screens at customer service areas. What do green buildings need to minimize transfer of diseases? Can these germs travel in the HVAC systems?

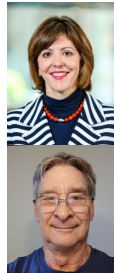

Dan has provided UV treatment equipment for HVAC systems for years, which is a viable disinfectant strategy. He will have updates regarding viral transmission.

Wendy is tracking this development as a LEED AP and Well AP with her ASHRAE engineers at PAGE. She sees the attention to the current pandemic as an opportunity to make decisions that not only reduce virus spread, but also make our built environment greener and healthier.

This is a webinar on Startmeeting.com, with 1 CEU available.

Speakers.....

Wendy Heger, Principal
Page
Dan Young, Owner
IAQ-Energy Solutions, Inc.

Held in the Green Building Resource Center located in the Houston Permitting Center with its LEED Gold Certification since 2012. The GBRC is Houston's best location for seeing displays of green building materials and strategies.
