500 W. Overland Ave #230

Price (Lunch Included)

USGBC Members: \$25

Non-Members: \$35

Students: \$20

1 CEU per workshop
AIA and GBCI credits

**Topic : Infrastructure,
Resilience, and Public
Space**

What role does public space play in the transformation of cities due to climate change? Similarly, what role does infrastructure play in realizing highly performative and beloved public space? The answer—a monumental role! This session looks to answer many of our prescient questions drawing from both real projects and complementary visions of the future.
